1 Types of assessment

1. The following definitions are used in these regulations:

Online Controlled Condition Exams

and readiness for students, submissions and Technical Failures. The Department is also responsible for providing you with clear information about these local arrangements.

Intercollegiate assessments

7. These regulations apply if you are a student from another institution who is taking assessments at UCL.
8. If you are a UCL student taking assessments at another institution, you will be subject to that institution's regulations for those assessments.

3 Preparing for your assessments

3.1 Module verification

1. You must ensure that you are registered on the correct modules, otherwise you will not be able to access your assessments. Your module registrations are viewable in Portico under 'My Studies'.
2. You must verify your modules on Portico by the

6. Mis-reading the timetable will not be considered valid grounds for Extenuating Circumstances (Section 5) or Technical Failure (Section 10.7).

3.5 Venues

1. You must sit in-person assessments at the venue designated in the timetable.
2. Exceptionally, you may be permitted to sit an assessment at another UCL-approved, educational institution if:
    a. You are enrolled on a distance learning programme, or

4 Reasonable Adjustments and Exam Adjustments

1. If you have a disability, medical condition or mental health condition, you may be eligible for additional support as part of your Summary of Reasonable Adjustments (SoRA).
2. Further details about the support available can be found in Chapter 2: Student Support Framework.
3. The Disability, Mental Health and Wellbeing team can talk you through the options and advise you on the support available for your particular circumstances, help you complete your application and advise you on gathering any documentary evidence that you might need.

Deadlines for Exam Adjustments

4. Exam Adjustments are a type of Reasonable Adjustment which apply to short-duration written assessments such as Online Controlled Condition Exams, In-Person Controlled Condition Exams, Take-Home Papers, Quizzes & In-Class Tests.
5.

Standard Timetabled Duration	2 hours
Upload Window	20 minutes
Duration shown in AssessmentUCL	2 hours 20 minutes

4. **The Upload Window is not additional writing time**. You must use the full 20-minute Upload Window for uploading files, completing the Cover Sheet (if applicable) and correcting any minor mistakes such as uploading the wrong file or clicking the wrong button. **Do not assume that this will not happen to you**.
5. The amount of time required for uploading files will vary by assessment. For the majority of exams, 20 minutes will give you plenty of time to complete this activity. However, if your exam has particularly extensive upload requirements (e.g. you have to take and upload multiple large-format photos, or you have to convert hand-written answers into PDF) the Department setting the exam should add an additional collation time to the duration of

a) Centrally-managed exams must be a minimum of two hours and a maximum of three hours duration.
b)

48 hours	16 hours	4 hours	52 hours
72 hours	24 hours	6 hours	78 hours
7 days	56 hours	14 hours	7 days and 14 hours

8. The above adjustments are designed to support the majority of UCL students with additional needs, at a ratio of two hours per eight working hours (i.e. 15 minutes per working hour, in line with standard adjustments for Controlled Condition Exams). However if you have more complex needs which mean that the standard amount of extra time is not suitable, you can contact the Disability, Mental Health and Wellbeing team who can liaise with your Department about alternative arrangements as appropriate.

Extenuating Circumstances

9. If you have been granted an extension via Extenuating Circumstances

Late starts

6. If you start your Practical Exam late but within the timetabled duration, you will be allowed to take the assessment but will forfeit any time already elapsed.
7. If the late start is due to valid Extenuating Circumstances, the examiners may use their discretion to allow you extra time in a live assessment. This may not always be possible, for example if it will have a negative impact on other students, or if access to laboratories and other specialist rooms and equipment is restricted. If a late start cannot be accommodated you will need to apply for Extenuating Circumstances (Section 5) to access a Deferral without Tuition to the next normal occasion.

6.6 Coursework, Dissertations/ Research Projects and other assessments

Submission deadline

1. Your Department must notify you of the standard submission deadline for your assessment.
2. There is no additional 'Upload Window' because extra time is already built into the nature of the assessment.

SoRA extensions

3. The standard SoRA extension for coursework is **one week**. The standard SoRA extension for Dissertations and Research Projects is **two weeks**. However, if you have more complex needs which mean that the standard amount of extra time is not suitable, the Disability, Mental Health and Wellbeing team may recommend alternative arrangements.
4. If you have SoRA extensions, your Department will automatically apply these to your submission due dates. You can choose whether to submit work by the original deadlines or the extended ones. We encourage you to consider your decision holistically, taking into account all deadlines you are working towards. Please refer to Chapter 2, Section 3: Reasonable Adjustments for Disabilities and Long-term Conditions for further details.

Extenuating Circumstances extensions

5. If you are given an Extenuating Circumstances extension, your Department will apply this to your submission due date. However you may be eligible for a Deferral or other form of mitigation under the Extenuating Circumstances procedures. Please refer to Chapter 2, Section 2: Short-term Illness and other Extenuating Circumstances for further details.

Late submissions

Technical failure mitigations

13. In order to protect the integrity of UCL's assessments and to promote fairness for students across different departments and faculties, there are standard recommended mitigations for each type of assessment:

Online Controlled Condition Exam	Where work has not been submitted within the 40 minutes late submission window: Deferral without Tuition to the next normal occasion (typically the Late Summer Assessment Period) or Where work has been submitted within the 40 minute late submission window: Suspension of the Late Submission Penalties
Take-home paper	Suspension of the Late Submission Penalties
Quizzes & In-class tests	Deferral without Tuition (timing determined by the department) or Exclude component from module calculation: Maximum 10% weighting
Practical exams	The examiners may use their discretion to allow you extra time in a live assessment or to move the assessment by a few hours or days. This may not always be possible, for example if it will have a negative impact on other students, or if access to laboratories and other specialist rooms and equipment is restricted, or If a late start cannot be accommodated, a Deferral without Tuition (timing determined by the Department).
Coursework, Dissertations, Research Projects and other assessments	Planning, time-management and the meeting of deadlines are part of the personal and professional skills expected of all UCL graduates. As students have a number of weeks or months to complete coursework, technical issues will **not** be considered as valid grounds for missing the deadline

a) If you defer your first attempt at an assessment, your module mark will be 'uncapped' i.e. you will receive the full mark for your work.
b) If you defer your second attempt at an assessment (i.e. you defer a Resit or Repeat), your module mark will continue to be 'capped' at the Pass Mark (i.e. the existing cap will not be removed but you will receive no further penalty).

4. 'Without Tuition' means that you will not attend any further classes or receive any further instruction; you will just retake the assessment. If you have particularly severe circumstances you may be offered the opportunity to take a Deferral with Tuition which means returning next year to re-attend classes.
5. Full details of the regulations for Deferrals can be found in Chapter 4, Part A, Section 8: Deferred Assessment.

12 If you do not make an assessable attempt

1. If you do not make an "Assessable Attempt", and you do not have valid grounds for making an Extenuating Circumstances (Section 5) or Technical Failure (Section 10.7) claim, **you will receive a mark of 0.00%/ Grade F for the assessment**. This includes:

a) If you do not start the assessment.
b) If you start the assessment but do not attempt the paper.
c) If you start the assessment but attempt so little of the paper that it cannot be assessed.
d) If you start the assessment but do not upload and submit in your work by the deadline.
